# Foreword

**T**WINPOINT is the Original and only genuine

## Combination Fountain Pen and Mechanical Pencil

—two perfect writing devices joined together yet operating independently.

Constructed of the finest and most substantial materials obtainable—yet moderately priced, TWINPOINT is a quality product from cap to point. The Pen holds a quantity of ink comparable to the average fountain pen—the Pencil operates with simplicity and mechanical perfection.

TWINPOINT eliminates the burdensome habit of carrying individual pens and pencils, hence the Slogan “A dependable Pen when you want it—A convenient Pencil when you need it.” . . . Nothing to get out of order . . . Always at your service.

And because of its quality and its usefulness TWINPOINT is a treasured companion in the office or workshop—in the home and in the school-room—out in the woods or on the high seas—wherever men labor or play. It is the unusual, sensible, acceptable gift, and is always sincerely appreciated.

Be sure to note our Trade Mark and our WHITE BAND which is on every TWINPOINT and which is registered for your protection. TWINPOINT is guaranteed to give service and satisfaction to the user through the dealer. Insist upon the Original and the genuine.

In the pages that follow we have set forth the various models, wherever possible, in the actual sizes in which TWINPOINTS are made, as well as other TWINPOINT products of the same high standard of quality and workmanship, which are also guaranteed to give service and satisfaction.

In presenting this price list of TWINPOINTS, we wish to thank our many dealers and friends for their support which has been instrumental in making the present development of our business possible, and to assure each and every one of them that TWINPOINT will always strive to maintain its present high standard of achievement.

## Yearly Calendar and Plain Pads combined with Desk Set

Any of the forms shown below as well as plain pads in either 4 x 7 or 5 x 8 can be supplied with this set.

This set consists of the new style TWINPOINT having an extra large ink capacity fitting snugly in a holder which can be laid down or turned around in any position. The holder is attached to the calendar as shown in the illustration.

The Calendar is made of a high quality paper and the sheets are all gold edged; perforated at the edge of the plate; the two nuts at the top hold the plate and sheets firmly to the base. The base board is bound with imitation leather binding which makes it look unworn to the last sheet. The base will not sag or warp nor mar or scratch furniture.

## MICROPHONE ELECTRIC CIGAR LIGHTER

### For Home or Office

To the ultra modern women who smoke, the artistic MICROPHONE LIGHTER will have an instant appeal. It will harmonize with any fittings, and is so convenient and so useful. At home or at the office, in fact ANYWHERE equipped with lighting current, this little unit will find a genuine welcome.

ACTUAL SIZE

for use with 110 Volt. A. C. or D. C.  
 No. 700 SPECI—Price \$4.50 each

Here is the very latest in Electric Cigar Lighters! The MICROPHONE LIGHTER is the most attractively designed and thoroughly dependable Lighter ever offered to the Public.

Made in miniature to conform to the exact appearance of the Radio Microphone used in all Broadcasting Stations, and equipped with a long life, quick heating coil.

The radio fan, the man at home or in the office will find it a pleasure to have a Light with the Microphone.

### Gold Plated

The finish is genuine gold-plate — not gilt or bronze — it will not tarnish. All parts of the MICROPHONE are of the very best materials, from the Bakelite attachment plug and silk cord, to the little button on the top—it is quality throughout. Six feet of cord with each Lighter provide ample length for nearly all installations. It is only necessary to plug in and Light up! In the event the heating element is damaged, the coil and its porcelain unscrew and are easily replaced.

Dealers Note: Each MICROPHONE is separately packed in a very attractive maroon box. Standard packages are 12 units, and weigh eight pounds.

To encourage selection, an assortment of TWINPOINTS and our other TWINPOINT products should always be prominently displayed as Gift Suggestions, in fact, TWINPOINTS are an appropriate gift for any occasion.

USE CODE WORD WHEN TELEGRAPHING ORDER

## PEN POINTS

In selecting an ink writing instrument, the buyer's first thought is to obtain a penpoint that is suitable to his or her individual taste.

The makers of TWINPOINT, alive to this essential fact, have studied earnestly to fulfill this requirement.

In our shop, penpoints are made only of full 14K. gold. The tip of the point is of osmium, the hardest known metal in the world, and its use in the manufacture of our pens, should, with due care, insure a lifetime for the pen. In the course of construction the pens pass through 42 distinct operations, the greater part of these being hand work to secure perfection in workmanship. Three examinations and tests are the final touch. Therefore, every penpoint that bears the imprint, TWINPOINT, can successfully withstand the most rigid test.

Ease of writing is the next consideration which we go to great expense by means of a hand-hammering process giving our pens a permanent flexibility which will not vary with the passage of time or usage.

The penpoints are made EXTRA FINE, FINE, MEDIUM, COARSE; FINE, MEDIUM and BROAD STUBS, OBLIQUE and MANIFOLD. In this selection can be found penpoints suitable for stenographers, bookkeepers and accountants and for all other uses.

## ENGRAVING

The beauty of a TWINPOINT will be further enhanced by an artistic and well executed inscription. The full name is preferable rather than the initials. Print initials and name distinctly as alterations cannot be made.

## ENAMELED EMBLEMS

Enameled Emblems of any organization can be mounted on top of the cap of the TWINPOINT. Quotations on TWINPOINTS with Emblems furnished on request.

## LEADS

TWINPOINT leads are of the highest grade standard black lead. These leads are packed one dozen in a box with an eraser. The price is 15c a box or two boxes for 25c.

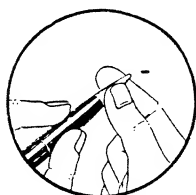

## INK

TWINPOINT ink is especially adapted for use in fountain pens, as it will flow freely at all times and never clog the pen or collect on the point. It is made in the regular blue-black fluid and put up in two-ounce bottles. Price 15c per bottle.

## Directions for Using TWINPOINTS

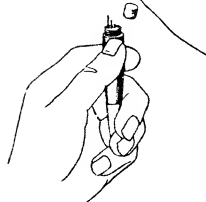

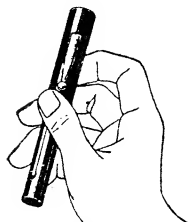

**TO FILL THE FOUNTAIN PEN:** Raise the lever on the side of the barrel as far as it will go *without using undue force*. This action empties the ink tube. Immerse the pen in ink, seeing that the end of the section holding point is entirely covered with ink. Then let the lever snap back into original position. This action fills the pen. Hold in the ink at least five seconds after the lever has gone back to original position.

**TO CLEAN THE PEN:** Proceed exactly as above, using a glass of water. More pens are received for repairs which are made necessary by the failure of the user to properly clean the pen. Do not use hot water and do not mix inks. For best results, it is important to clean any fountain pen regularly and thoroughly. Do not remove or tamper with the gold pen as its adjustment requires expert work. This also applies to every part of the TWINPOINT.

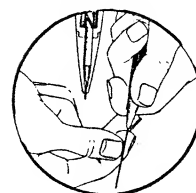

No. 1

1. **TO EMPTY LEAD:** When the lead is all used up, hold TWINPOINT in your left hand and revolve the gold point of the pencil away from you. This expels the old lead.

No. 2

2. **TO USE ERASER OR GET NEW LEAD:** A magazine of new lead and an eraser are contained in the barrel of TWINPOINT. Simply unscrew the barrel at the White quality or at the division line on the Gold TWINPOINT. The eraser is in the pencil half. Lift out the eraser to get a new lead.

No. 3

3. **TO INSERT NEW LEAD:** Screw back the two parts of the barrel. Turn gold tip toward you two turns, place new lead in pencil tip, and gently force lead into pencil by pressing against any firm object. Use only TWINPOINT leads. A difference of a thousandth of an inch may injure the pencil movement beyond repair.

**GUARANTEE:** Every TWINPOINT is guaranteed to give the fullest satisfaction and service and to have no defects in manufacture. If any such defects appear, they will be made good by us at once and without charge. The genuine TWINPOINT bears our name and Trade Mark. Beware of imitations.

**REPAIRS:** When returning TWINPOINTS for repair or adjustment, always send the entire TWINPOINT. Pack it securely, putting your name and address on the package, sending it by registered or insured mail.

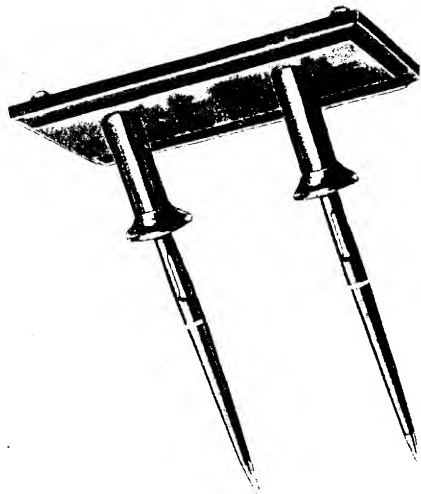

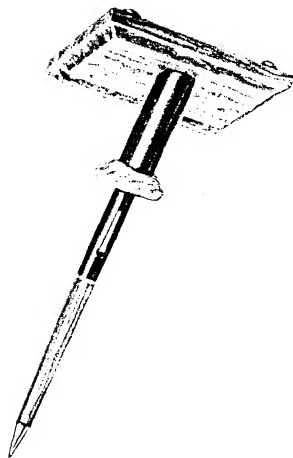

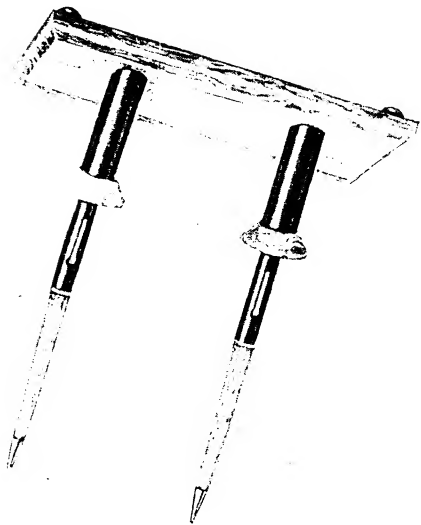

Avoid using ink from an uncorked bottle or stand. Such ink has become dusty and thick. This clogs the feed and necessitates frequent washing. More pens refuse to work because of dirty ink than from any other cause. Every Purchaser of a TWINPOINT should be advised of the importance of cleaning his pen at regular intervals.

Non - breakable . . . Non - inflammable
